Opis produktu

Aputure Light Dome 150

The **Light Dome 150** is a 150cm (59in) **Bowens Mount Quick- Setup Circular Softbox**. Its substantial surface area makes it ideal for high-powered Bowens Mount LEDs, such as the [Aputure LS 600d Pro](#) or LS 600x Pro. Its 32-sided quick-setup build transforms a hard pointsource light into a soft source with perfectly circular reflections in one minute. The Light Dome 150 also includes two diffusion strengths to allow users to fine tune their intensity and light quality.

The **Aputure Light Dome 150** is ideal for cinematographers and photographers who need to cover a wide area. The 150cm diameter produces a soft light that can easily wrap around a single subject or evenly illuminate a large group.

Specyfikacja

SPECIFICATIONS

Diffusion Densities	1.5 Stop & 2.5 Stop
Light Control Grid: Beam Angle	45°
Speed Ring Adapter	Standard Bowens Mount

DIMENSIONS

Softbox unfolded	Φ1500mmx800mm (Φ59.06"x31.5")
Outside Diffuser 1 (1.5 Stop)	Φ1420mm(Φ55.91")
Outside Diffuser 2 (2.5 Stop)	Φ1420mm(Φ55.91")
Light Control Grid	Φ1420mm(Φ55.91")

WEIGHT

Net Weight	3.32kg (7.32 Lbs)
