Opis produktu

IMPORTANT! MotoCrane ULTRA ONLY!

MotoCrane ULTRA firmware must be updated via the ULTRA Programming Kit for compatibility. If you don't already own the ULTRA Programming Kit, you must add it during checkout.

100% developed in-house for precise arm control and intuitive user experience- the COMMAND Console is packed with features that help you focus on the shot. The PRO features a 7.0" full-color resistive touch display makes it easy to navigate between arm position viewing, configuring settings like Limits, and monitoring/self-diagnostics.

Features:

- Dual single-axis joysticks for discreet control of Lift and Swing .
- PRO version features a low-profile design for comfortable placement.
- Solid 6061-T6 chassis construction.
- Analog potentiometer adjustments for Speed.
- Ships with NEW Firmware v1.5 Update featuring ULTRA Compatibility.
- Store up to 3x Limits Profiles.
