

DVM (Driver View Monitor)

Cena brutto	16 728,00 zł
Cena netto	13 600,00 zł
Dostępność	Na zamówienie
Producent	MotoCrane

Opis produktu

Camera car drivers are instrumental to safe and effective shot execution on a dynamic film set. The Driver View Monitor (DVM) was developed to give drivers real-time arm position and diagnostics feedback so they can focus on driving instead of the position/status of the arm.
