Flowcine 100mm Front extension block

Cena brutto	555,00 zł
Cena netto	451,22 zł
Dostępność	Dostępny w sprzedaży
Producent	Flowcine

Opis produktu

Flowcine 100mm Front extension block is a high-quality, precision-machined component designed for use in industrial applications. It is made from a durable material, ensuring long service life and consistent performance. The block features a robust design with a flat top surface and a series of mounting holes for easy integration into various systems. It is suitable for use in environments where high precision and reliability are required. For more information, please refer to the technical specifications and user manual.
