Opis produktu

Pop-N-Lock 15mm Quick Release

MōVI Users like to customize and modify their rigs for their specific applications. This means mounting a variety of accessories to the 30mm, 25mm, and 15mm carbon tubes. We have created the Pop-N-Lock line of quick release to enable users to quickly set up their rigs with a variety of lightweight accessories.

The Pop-N-Lock mounting plate features a variety of mounting holes, and quick releases from the clamp using a ultra lightweight dovetail plate. Once your shoot is complete, you can quickly remove all accessories from the gimbal for quick tear down and packing.

Please note - the Pop N Lock was designed for lightweight accessories, not large accessories like monitors.

Features:

- Ultra lightweight design
- 15mm dual tube quick release clamp
- Quick release dovetail
- ¼-20 countersunk mount hole
- ¼-20 threaded mount hole
- ⅜-16 threaded mount hole
- 3mm mounting holes
- Slots for velcro straps
- Machined Aluminum Mounting plate
- Weight: 35g (46g with aluminum mounting plate)
