Opis produktu

MixPanel 60 Bicolour + RGB Hard & Soft Light LED Panel With this versatile new three-in-one LED fixture from NanLite, you can easily switch from a traditional multi-LED panel for hard light to a diffused SMD LED panel for softer light or a tunable RGB panel for more colourful creative looks and built-in effects. Colour temperature ranges from 2700 to 7500K with plus/minus green and zero to 100% dimming.

Key Features:

- CRI: 98
- TLCI: 95
- 2700K - 7500K colour temperature range
- 43 GELS and 10 special programmed lighting effects
- 2.4G, Wi-Fi, DMX Remote Control
- Can be powered by AC adapter or V-mount battery
- Firmware can be updated via USB port
- 0-100% flicker-free dimming

PavoTube | 15C RGB+W LED Tube with Internal Battery An amazingly versatile lighting fixture featuring 0 to 100% dimming, a maximum output of 1400 lumens (352Lux @ 1m 5600K), a CRI of 98 and a TLCI of 95, adjustable color temperature from 6500-2700K as well as a full spectrum RGB and pre-programmed special lighting effects.

Kit contains

- MixPanel 60
- Nanlite PavoTube 15C
