## Phone Clamp Mount

Cena brutto	<b>365,00 zł</b>
Cena netto	<b>296,75 zł</b>
Dostępność	<b>Na zamówienie</b>
Producent	<b>Freefly Systems</b>

### Opis produktu

Not all phone clamps are strong enough to be used on set, which is why we wanted to make a better one.

The Ember Phone Clamp is designed to be ultra low profile and lightweight, while also having a high spring force to keep your phone locked in. With 6 threaded ¼"-20 holes and a cold shoe receiver, it can be mounted virtually anywhere on your rig and accommodate more accessories like lights and mics.

The base ¼"-20 also has anti rotate holes for ARRI standard pins. It also works with virtually any size mobile device, and has padded silicone contact points to keep them safe. We highly recommend using it with our NATO Clamp and dual monitor mount setup for secondary control to your cine monitor. Or pair it with the [Freefly Adjustable Accessory Mount](#) to adjust your viewing angle without tools.

### Features
