SL8-Air Battery

Cena brutto	3 920,00 zł
Cena netto	3 186,99 zł
Dostępność	Dostępny w sprzedaży - wysyłka 1-5 dni
Producent	Freefly Systems

Opis produktu

Battery with built-in battery management and an OLED display.

SuperLight Air Batteries are designed for rigors of flight and ease of use with Astro.

Built-in battery management eliminates the need for balance connectors. The microprocessor handles: charging, discharging, and health monitoring. The OLED display indicates the state of charge, voltage, current, and more.

We added a [USB-C Power Delivery port](#) to charge your devices (even your laptop!)

Notes

- Astro requires two SL8-Air Batteries for each flight
- Recharge rapidly with the [SL8 Fast Charger](#) (90 minutes per battery)
- [Airline carry-on compatible](#) (157Wh each)
- The SL8-Air battery was designed for Astro, but will work with any device that uses the [Freefly Open Battery Interface](#).

Compatibility:

- [Astro Base](#)
- [Astro Map](#)
- [SL8 Fast Charger](#) (Optimum)
- [SL Charger \(USB C\)](#) (Sub-optimum, 2.5hr charge time with 100W power supply)

Specyfikacja

- Gives Astro up to 37 minutes of flight time, per pair:
 - See the wiki for [estimated flight time details](#)
- Voltage: 21.6 V (6S)

-
- Capacity: 7.3 Ah, 157 Wh
 - Weight: 2.25lbs
 - Chemistry: Lithium-Ion
 - Auxiliary output: [USB-C Power Delivery](#) (up to 60W)
 - **Designed and Assembled in USA**
