Opis produktu

ULTRA XP Base Upgrade

The XP Base is a plug-n-play Base module upgrade for MotoCrane ULTRA that notably upgrades performance in a variety of ways. More information can be found at motocrane.com/ultraxp

Since the XP Base utilizes the same Base Driver Unit (BDU) as the original ULTRA Base, you must choose to either utilize your *existing* BDU, or add a new, redundant BDU allowing your original Base and BDU to act as backup units.
